

Basketball Evaluation and Draft Process

Upon Arrival

1. Players will report to the check in table to confirm contact information.
2. Players will be given their player card and have their picture taken.
3. Parents will be given information about upcoming player draft process.
4. Players will head into the gym to wait for their turn to be evaluated.

Player Screening

- The Y staff will pull groups of 8-10 kids to evaluate.
- Kids will potentially start with a quick warm up where they are stretched and ran. If evaluation groups for certain sessions are smaller in number, this step may be shortened or skipped for the sake of time.
- This group will then proceed to go through the skills assessment.
- Following the assessments, this group will then be transferred to the specified court and will be split into two teams and play a short scrimmage (8-10 minutes).
- Coaches will be on hand to evaluate the players in four categories specific to basketball. Once the first group has completed the evaluation process, the second group will be pulled to the court and evaluated.
- Once a group is done with the evaluation segment, those participants are cleared to leave. Groups may go in reverse order for the sake of time. The Sports Department staff and • Volunteer Coaches will compile totals and averages for each athlete which will be used for the upcoming player drafts.
- Your child's day and time of practice will be determined the week prior to the draft process. You will be contacted via player space communications with your child's team practice day and time.
